

Quantitative Asset and Risk Management

Admission test and interview

Admission test

The admission test is carried out as an electronic multiple choice test. The following literature is recommended to help applicants prepare for the test: *Wirth, M., Preparation text for the admission test: Mathematics, Returns and Statistics, Version 2019*. This handout can be downloaded from the “Downloads” section of the master programme section on the FH website.

Permitted aids for the admission test:

- a non-programmable pocket calculator
- a pen or pencil
- blank paper (will be provided)

Admission interview

For the admission interview applicants are required to choose one of the three articles provided on the FH website of the master programme in the “Downloads” section. The selected article will be discussed (in English) during the interview. The titles of the three articles are:

- *Bloomberg: Last Bastion of Credit Under Fire as Guggenheim Sees ‘More Pain*
- *Bloomberg: The Plug-In Hybrid Car Hits Its Stride, Just in Time to Die*
- *Bloomberg: The \$200 Trillion Gold Rush That Has Reshaped Private Banking*
